*The war between the States, from 1861 to 1865, was a period of war and duty such as the world has never known before. The Army of the United States, in 1861, was a small force, and the Government was unprepared for the time to come. The Government, however, was able to raise a large force, and the subsequent years were a period of the most successful fighting in the history of the United States.
